## Swivel chair

---

The Camiro work&meet swivel chair is especially well suited to tasks that fall between work and communicating. People meet and hold a team discussion before returning to their desk for a period of concentrated work. Often, they will have to change chair. Very few of them go to the effort of adjusting the chair precisely to suit themselves as they are only using it for a short amount of time. That's why the work&meet swivel chair has just two settings: the seat height and backrest lock. The seat is especially comfortable as it features internal stretched mesh suspension.
